1976 No. 298

SEEDS

Oil and Fibre Plant Seeds Regulations (Northern Ireland) 1976

Made	*5th October* 1976
Coming into operation . . .	*26th October* 1976

The Department of Agriculture(a) in exercise of the powers conferred on it by sections 1, as amended by Article 3 of and Schedule 3 to the European Communities (Agriculture) Order (Northern Ireland) 1972(b), 4 and 9 of the Seeds Act (Northern Ireland) 1965(c) and of every other power enabling it in that behalf and after consultation with representatives of such interests as appear to it to be concerned, hereby makes the following Regulations.

Citation and commencement

1. These Regulations, may be cited as the Oil and Fibre Plant Seeds Regulations (Northern Ireland) 1976, and shall come into operation on the 26th October 1976.

Revocation

2. The Oil and Fibre Plant Seeds Regulations (Northern Ireland) 1974(d) are hereby revoked.

Interpretation

3.—(1) In these Regulations—

"the Act" means the Seeds Act (Northern Ireland) 1965;

"Common Catalogue" means the Common Catalogue of varieties of kinds of agriculture plants published in the Official Journal of the European Communities;

"the Department" means the Department of Agriculture;

"maintainer" means a person who is indicated in a National List or in the Common Catologue as responsible for the maintenance of the particular oil or fibre plant variety;

"marketing" includes, as the context shall permit, the offer for sale, exposure for sale, sale and possession with a view to sale of seeds, and any transaction in the course of business—

(*a*) under which the property in seeds is transferred from one person to another, or

(*b*) under which the seeds are made over by one person to another in pursuance of a contract under which the seeds will be used for producing further seeds or for producing plants or parts of plants for human or animal consumption or for industrial use;

"Member State" means a member state of the European Communities;

(a) Formerly Ministry: *see* 1973 c. 36 Sch. 5 para 8
(b) S.R. & O. (N.I.) 1972 No. 351 (p. 1740)
(c) 1965 c. 22 (N.I.)
(d) S.R. 1974 No. 150 (I, p. 616)

"National List" means a list of varieties of kinds of oleaginous and fibrous plants published in accordance with the Seeds (National Lists of Varieties) Regulations 1973(e), or any regulations superseding those Regulations;

"official examination" as respects seeds harvested in the United Kingdom, means in relation to Northern Ireland, an examination carried out by or on behalf of the Department, subject to the payment of any fee imposed by regulations made under the Act, or in relation to England and Wales, by or on behalf of the Minister of Agriculture Fisheries and Food or, in relation to Scotland, the Secretary of State and as respects seeds harvested elsewhere than in the United Kingdom, an examination approved by the Department;

"official label" and "official notice" mean respectively a label and a notice prepared by or on behalf of the Department;

"small package" means a package of seeds containing no more than a net weight of 15 kilograms of seeds.

"seeds" means seeds to which these Regulations apply by virtue of Regulation 4.

(2) In these Regulations—

"pre-basic seeds" means seeds of a generation earlier than that of basic seeds—

(*a*) which have been produced by or under the responsibility of the maintainer,

(*b*) which are intended for the production of pre-basic seeds, uncertified pre-basic seeds, basic seeds, certified seeds, certified seeds of the first generation, certified seeds of the second generation or, as regards flax and linseed, certified seeds of the third generation, and

(*c*) which satisfy the requirements for basic seeds set out in Schedule 2 and which have on an official examination been found to satisfy those requirements;

"uncertified pre-basic seeds" means seeds of a generation earlier than that of basic seeds—

(*a*) which have been produced in the United Kingdom by or under the responsibility of the maintainer, and

(*b*) which are intended for the production of pre-basic seeds, uncertified pre-basic seeds or basic seeds;

"basic seeds" means seeds—

(*a*) which have been produced by or under the responsibility of the maintainer,

(*b*) which are intended for the production of certified seeds or certified seeds of the first generation, certified seeds of the second generation or, as regards flax and linseed, certified seeds of the third generation, and

(*c*) which satisfy the requirements for basic seeds set out in Schedule 2 and which have on an official examination been found to satisfy those requirements;

"certified seeds" means seeds of turnip rape, swede rape, brown mustard, black mustard, white mustard or sunflower—

(e) S.I. 1973/994 (1973 II, p. 3024)

(*a*) which have been produced directly from basic seeds or, with the approval of the maintainer, from pre-basic seeds,

(*b*) which are intended to be used mainly for the production of plants or parts of plants for human or animal consumption, and

(*c*) which satisfy the requirements for certified seeds set out in Schedule 2 and which have on an official examination been found to satisfy those requirements;

"certified seeds of the first generation" means seeds of soya bean, flax or linseed—

(*a*) which have been produced directly from basic seeds or, with the approval of the maintainer, from pre-basic seeds,

(*b*) which are intended to be used mainly for the production of plants or parts of plants for human or animal consumption or for industrial use or for the production of certified seeds of the second generation or, as regards flax and linseed, certified seeds of the third generation, and

(*c*) which satisfy the requirements for certified seeds of the first generation set out in Schedule 2 and which have on an official examination been found to satisfy those requirements;

"certified seeds of the second generation" means seeds of soya bean, flax or linseed—

(*a*) which have been produced directly from basic seeds, certified seeds of the first generation or, with the approval of the maintainer, from pre-basic seeds,

(*b*) which are intended to be used mainly for the production of plants or parts of plants for human or animal consumption or for industrial use or, as regards flax and linseed, for the production of certified seeds of the third generation, and

(*c*) which satisfy the requirements for certified seeds of the second generation set out in Schedule 2 and which have on an official examination been found to satisfy those requirements;

"certified seeds of the third generation" means seeds of flax or linseed—

(*a*) which have been produced directly from basic seeds, certified seeds of the first generation or certified seeds of the second generation or, with the approval of the maintainer, from pre-basic seeds,

(*b*) which are intended to be used mainly for the production of plants or parts of plants for human or animal consumption or for industrial use, and

(*c*) which satisfy the requirements for certified seeds of the third generation set out in Schedule 2 and which have on an official examination been found to satisfy those requirements;

"commercial seeds" means seeds of brown mustard, black mustard, white mustard or soya bean—

(*a*) which are identifiable as to their kind, and

(*b*) which satisfy the requirements for commercial seeds set out in Schedule 2 and which have on an official examination been found to satisfy those requirements.

Seeds to which the regulations apply

4.—(1) Subject to paragraphs (2) and (3) these Regulations apply to oil and fibre plant seeds of the kinds set out in Schedule 1, being seeds intended to be used only for the production of agricultural or horticultural crops other than for ornamental purposes.

(2) These Regulations shall not apply to—

(*a*) seeds which are marketed for delivery elsewhere than in a Member State,

(*b*) seeds used or to be used for research or experiment,

(*c*) seeds used or to be used in the course of a process of selection, and

(*d*) seeds which are marketed with a view to processing, treatment or cleaning, provided that the identity of the seeds is stated by the person by whom they are marketed.

(3) Where a person makes arrangements under which some other person uses seeds under the control of the first-mentioned person for the purpose of increasing the first-mentioned person's stock of seeds for sowing or of carrying out tests or trials and under which the whole of the material produced, directly or indirectly, from the seeds, and any unused seeds, become or remain the property of the first-mentioned person these Regulations shall not apply to the marketing of the seeds by the first-mentioned person to the other person as part of the arrangements or to the marketing by that other person to the first-mentioned person of seeds produced, directly or indirectly, from those seeds.

Marketing of seeds

5.—(1) Subject to the provisions of this regulation no person shall market any seeds unless they are seeds of plant varieties which may be marketed in accordance with regulation 31 of The Seeds (National Lists of Varieties) Regulations 1973 or any Regulations superseding those Regulations and unless they are—

(*a*) pre-basic seeds, uncertified pre-basic seeds, basic seeds, certified seeds, certified seeds of the first generation, certified seeds of the second generation, certified seeds of the third generation or commercial seeds; or

(*b*) seeds which have been produced, packaged and officially sealed in a Member State other than the United Kingdom and labelled appropriately in accordance with the requirements of regulation 9(1), (2), (3), (5), (8) and (10); or

(*c*) seeds which have been produced elsewhere than in a Member State and which are marketed in accordance with and subject to the conditions imposed by a general licence granted by the Department under the authority of this paragraph.

(2) Paragraph (1) shall not prevent the marketing of kinds of varieties of oil and fibre plant seeds included in mixtures of seeds permitted by the Fodder Plant Seeds Regulations (Northern Ireland) 1974(f) or any Regulations superseding those Regulations, where each of the constituents to which these Regulations apply consists of seeds marketed in accordance with paragraph (1).

(3) The Department may, by a general licence taking effect during a period specified in the licence and subject to any conditions imposed by the licence,

(f) S.R. 1974 No. 147 (I, p. 538)

(*a*) authorise any person to market as pre-basic seeds, uncertified pre-basic seeds, basic seeds, certified seeds, certified seeds of the first generation, certified seeds of the second generation, certified seeds of the third generation or commercial seeds, seeds which fail in some respect to satisfy the requirements for such seeds set out in Schedule 2,

(*b*) modify in relation to those seeds the labelling requirements set out in Schedule 5, or

(*c*) authorise any person to market seeds which, notwithstanding the requirements of the Seeds (National Lists of Varieties) Regulations 1973 or any Regulations superseding those Regulations, are of a variety not entered in a National List or in the Common Catalogue,

provided that in all other respects unless expressly otherwise provided the provisions of these Regulations shall apply in relation to the marketing of the seeds.

(4) Any person may market in relation to a sale or proposed sale to a person engaged in the business of trading in seeds, other than by way of retail sale, seeds which have been imported from a country other than a Member State notwithstanding that such marketing would otherwise be prohibited by virtue of paragraph (1) (*c*).

(5) Notwithstanding the requirement in Part II of Schedule 2 that basic seeds shall attain the minimum standards of germination specified in the said Schedule any person may, subject to the requirements of regulation 9(2)(*b*) and (6), market as pre-basic seeds or basic seeds, seeds which in other respects satisfy the requirements for basic seeds set out in the said Schedule but which attain a lower percentage of germination than that specified in the said Schedule in relation to seeds of that kind.

(6) In a case where the official examination in respect of the germination of a proposed consignment of seeds has not been completed, but a preliminary test of germination has shown that the seeds attain the appropriate minimum standard of germination specified in Schedule 2 and the seeds in other respects satisfy the appropriate requirements of the said Schedule, the seeds may, subject to the requirements of regulations 9(6) and 10, be sold. In the event of any such sale the seller of the seeds shall, upon or before delivering them to the purchaser, provide him with a statement that the seeds are marketed before the completion of the official germination test together with the result of the preliminary test of germination, and shall provide him with the result of the completed official test as soon as practicable, and in any case not later than seven days after being informed of the result.

(7) Paragraphs (5) and (6) shall not apply to seeds which have been imported from a country other than a Member State unless they were produced directly from pre-basic seeds, basic seeds, certified seeds of the first generation or certified seeds of the second generation certified in a Member State.

(8) Notwithstanding the requirements of regulation 31(1) and (2) of the Seeds (National Lists of Varieties) Regulations 1973 or the equivalent provisions in any Regulations superseding those Regulations commercial seeds may be marketed which are not of a variety which is entered in a National List or the Common Catalogue or which are marketed otherwise than under a varietal name.

Sampling

6.—(1) A sample of seeds taken for the purposes of an official examination or, subject to paragraph (3) for the enforcement of these Regulations shall be taken in accordance with the procedure set out in Part I of Schedule 3.

(2) A sample of seeds taken for the enforcement of these Regulations shall be divided into three parts of which one part shall be delivered or sent to the owner of the seeds or his representative, one part shall be delivered or sent to the Chief Officer of an Official Seed Testing Station and the remaining part shall be retained and be available for production to a court in accordance with section 9(7) of the Act: provided that where it appears to the person taking the sample that the seeds from which the sample has been taken were purchased for use and not for resale, the first part of the sample shall be delivered or sent to the last seller of the seeds or his representative in place of the owner of the seeds or his representative.

(3) The weight of a sample taken for the enforcement of these Regulations shall be such as to ensure that each of the parts into which it is divided is of not less than the minimum weight indicated in Part II of Schedule 3 and the sample shall be divided accordingly.

Certificates of taking and testing of a sample

7.—(1) A certificate in the form set out in Part I of Schedule 4 of the taking of a sample of seeds is hereby prescribed for the purpose of section 9(3) of the Act.

(2) A certificate in the form set out in Part II of Schedule 4 of the result of a test of a sample of seeds taken for the enforcement of these Regulations, hereby prescribed for the purpose of section 7(3) of the Act.

Sealing of packages

8.—(1) No person shall market in accordance with regulation 5(1)(*a*) a package of seeds (other than a package of uncertified pre-basic seeds, a small package of basic seeds, certified seeds, certified seeds of the first generation, certified seeds of the second generation, certified seeds of the third generation or of commercial seeds) unless it has been, not later than at the time of sampling, sealed by a person authorised by the Department in that behalf with a sealing device (which may be an adhesive label) in such a manner that when the package is opened the sealing device will be broken and cannot be re-used.

(2) If a package of seeds which has been sealed in accordance with paragraph (1) or imported in accordance with regulation 5(1)(*b*) or 5(1)(*c*) shall have been opened it may not be re-sealed or further re-sealed except by a person authorised by the Department in that behalf.

(3) No person shall market a package of uncertified pre-basic seeds or a small package of seeds in accordance with regulation 5(1)(*a*) unless it has been sealed with a sealing device approved by the Department in such a manner that when the package is opened the sealing device is broken and cannot be re-used.

Labelling of packages

9.—(1) Subject to paragraph (9) no person shall market any seeds in accordance with regulation 5(1)(*a*) except in a package which is labelled, inscribed or otherwise dealt with in accordance with this regulation.

(2)(*a*) A package (other than a small package) of pre-basic seeds, basic seeds, certified seeds, certified seeds of the first generation, certified seeds of the second generation, certified seeds of the third generation or of commercial seeds shall have affixed on the outside an official label containing, as appropriate to the seeds, particulars of the matters specified, and being of the size and colour also specified, in Part I of Schedule 5, which shall be either an adhesive label or a label secured to the package by an alternative sealing device and shall be affixed in either case by a person authorised by the Department in that behalf.

(*b*) If in accordance with regulation 5(5) a person shall market basic seeds of a lower percentage of germination than that specified in Schedule 2 the fact shall be stated on the official label.

(3) A package (other than a small package) of pre-basic seeds, basic seeds, certified seeds, certified seeds of the first generation, certified seeds of the second generation, certified seeds of the third generation or of commercial seeds shall contain an official notice which shall be of the same colour as the official label and shall contain particulars of the matters specified in the items numbered, in the case of seeds other than commercial seeds, 4, 5 and 6 in Part IA of Schedule 5 and, in the case of commercial seeds, 4, 5 and 6 in Part IB of Schedule 5: provided that if such particulars are printed indelibly on the outside of the package or if the official label is an adhesive label the official notice referred to in this paragraph shall not be required.

(4) A package of uncertified pre-basic seeds shall have affixed on the outside a label containing, as appropriate to the seeds, particulars of the matters specified and being of the colour also specified in Part II of Schedule 5: provided that if such particulars are printed indelibly on the outside of the package the said label shall not be required.

(5) A small package of seeds shall have affixed on the outside a label containing, as appropriate to the seeds, particulars of the matters specified and being of the colour also specified in Part III of Schedule 5: provided that if such particulars are printed indelibly on the outside of the package the said label shall not be required.

(6) If a person shall market seeds in accordance with regulation 5(5) or (6) a supplier's label affixed to the outside of the package shall, where the seeds are marketed in accordance with regulation 5(5), contain a statement of the germination of the seeds and, where the seeds are marketed in accordance with regulation 5(6), contain a statement of the germination of the seeds as ascertained on the preliminary test of germination, together in either case with the name and address of the seller and the reference number of the lot.

(7) If a package of seeds shall have been re-sealed in accordance with regulation 8(2) the fact shall be stated, together with the date of the re-sealing and the name of the authority responsible for it, on the official label.

(8) If any seeds have been subjected to any chemical treatment the fact that they have been so subjected and the nature of the treatment or the proprietary name of the chemical employed shall be stated either—

(*a*) on the label referred to in paragraphs (2), (4) or (5) or, where such a label is not required, with the particulars otherwise given in accordance with those paragraphs, or

(*b*) on a separate supplier's label

and also, except where the label referred to in paragraphs (2), (4) or (5) is not required or where the information prescribed by this paragraph is given on an adhesive label, either on the outside of the package or in a statement enclosed in the package.

(9) A person may sell any seeds otherwise than in a package which is labelled, inscribed or otherwise dealt with in accordance with this regulation provided that they are sold by way of retail sale, in a quantity not exceeding 5 kilograms, and are taken in the presence of the purchaser from a container on or in the proximity of which there is clearly and visibly marked or displayed a statement containing the particulars of the matters specified in the said Part IV of Schedule 5.

(10) The particulars and information given in accordance with this regulation shall be given in one of the official languages of the European Economic Community.

(11) Subject to the provisions of the Act and of these Regulations no person shall, in the course of the marketing or the preparation for the marketing of any seeds by himself or by some other person, wilfully reproduce, remove, alter, deface, conceal or misuse in any way any label or notice affixed to, contained in or marked on any package of seeds or to be so affixed, contained or marked.

Records of transactions

10. A person who sells any seeds in accordance with regulation 5(6) shall make and, during a period of twelve months following the delivery of the seeds, keep available for inspection by an officer duly authorised by the Department a record of the date of such delivery, the reference number of the lot of seeds delivered, the name and address of the purchaser and the date on which he was provided with the result of the completed official germination test.

Civil liabilities of sellers of seeds

11.—(1) The particulars given to a purchaser by the seller of pre-basic seeds, basic seeds, certified seeds, certified seeds of the first generation, certified seeds of the second generation, certified seeds of the third generation or commercial seeds whether given in pursuance of these Regulations expressly or by implication arising from the description under which the seeds are sold, shall constitute a statutory warranty for the purpose of section 4 of the Act in so far as they relate to the percentage of germination of the seeds, the percentage of analytical purity of the seeds, the contents of seeds of other plant species and the varietal purity of the seeds.

(2) Section 4(2) of the Act shall apply to any particulars given to a purchaser by the seller of seeds, being particulars given or implied as in paragraph (1) of this regulation, in so far as they relate to the percentage of germination, the percentage of analytical purity, or to the content of seeds of other plant species and there are hereby prescribed in respect of such matters the limits of variation set out in Schedule 6.

(3) Section 4(3) of the Act shall apply to any particulars given to a purchaser by the seller of seeds, being particulars given or implied as in paragraph (1) of this regulation, in so far as they relate to the percentage of germination, the percentage of analytical purity or to the content of seeds of other plant species.

(4) A purchaser who intends to obtain a test of seeds for the purposes of section 4(3) of the Act shall, not more than 10 days after delivery to him of the seeds, give to the seller written notice of his intention and thereupon the seller may indicate a day (not being more than 21 days after delivery of the seeds to the purchaser) and a reasonable time on that day at which a sample of the seeds may be taken in the presence of himself or his representative and the purchaser shall afford to the seller reasonable facilities for that purpose.

(5) On the day and at the time appointed by the seller in accordance with paragraph (4) or, if the seller shall have failed to appoint such a day and time, on a day not more than 28 days after delivery of the seeds to the purchaser, the purchaser may, and if the seller or his representative is present shall, take a sample of the seeds, such sample being taken in accordance with the procedure set out in Part I of Schedule 3, and shall divide the sample so taken into two parts, each being of at least the appropriate minimum weight specified in Part II of Schedule 3 of which one part shall be sent to the Chief Officer of an Official Seed Testing Station for the purpose of being tested and the other part delivered or tendered to the seller or his representative or, if he or his representative was not present when the sample was taken, sent to him by post.

Sealed with the Official Seal of the Department of Agriculture for Northern Ireland on 5th October 1976.

(L.S.) *D. J. Alexander*
Assistant Secretary

SCHEDULE 1 Regulation 4(1)

Kinds of seeds to which the regulations apply

Latin name	*Common name*
Brassica campestris L. ssp. *oleifera* (Metzg.) Sinsk.	Turnip rape
Brassica juncea (L.) Czern. et Coss	Brown mustard
Brassica napus L. ssp. *oleifera* (Metzg.) Sinsk.	Swede rape
Brassica nigra (L.) W. Koch	Black mustard
Glycine max (L.) Merrill	Soya Bean
Helianthus annuus L.	Sunflower
Linum usitatissimum L.	Flax, linseed
Sinapis alba L.	White mustard

Regulations 3(2), 5(3), (5) and (6) and 9(2)

SCHEDULE 2

Requirements for basic seeds, certified seeds, certified seeds of the first generation, certified seeds of the second generation, certified seeds of the third generation and commercial seeds

PART I

Conditions relating to the crop from which the seeds, other than commercial seeds, are obtained

Varietal characteristics

1. So far as it can be ascertained at crop inspection, supplemented where appropriate by examination of a plot sown by the Department with a sample from the seed lot sown in the field, the plants shall conform to the characteristics of the variety established when the variety was included in a National List or the Common Catalogue.

Crop inspections

2. There shall be at least one official inspection of the crop.

Crop condition

3. The cultural condition of the field and the stage of development and the condition of the crop shall be such as to permit a sufficient check of identity, varietal purity and state of health.

The crop shall be of a satisfactory state of health so far as seed-borne organisms and diseases affecting the seeds are concerned.

Previous cropping

4. The crop may be grown only on land which has not previously been cropped in a manner that might adversely affect the nature or quality of the seeds to be produced and which complies with the Department's requirements in that respect.

Isolation distances

5. There shall be a physical barrier or at least 2 metres of fallow between the seed crop and any crop likely to cause contamination in the seed.

6. For turnip rape, brown mustard, swede rape, black mustard, sunflower and white mustard the minimum distance from neighbouring crops of other varieties and species liable to cross-pollinate with the seed crop shall be for—

(*a*) crops to produce basic seed . . . . 400 metres

(*b*) crops to produce certified seeds . . . . 200 metres

With the approval of the Department these distances need not be observed if there is adequate protection against any undesirable pollination.

Varietal purity

7. The minimum varietal purity of the crop shall be:

Minimum varietal purity (percentage by number)	*Basic Seeds*	*Certified seeds of the first generation*	*Certified seeds of the second or third generation*
Soya bean	97	95	95
Flax and linseed	99.7	98	97.5

PART II

Conditions relating to the seeds

A. Basic seeds, certified seeds, certified seeds of the first generation, certified seeds of the second generation and certified seeds of the third generation.

1. The seeds shall possess the identity and varietal purity specified in Part I.

2. The seeds shall comply with the following standards—

	Minimum germination (percentage by number of pure seeds or pure pellets)	*Minimum analytical purity (percentage by weight)*	*Maximum content of seeds of other plant kinds (percentage by weight)*
1	2	3	4
Brassica species except for summer varieties	85	98	0.2
Brassica species, summer varieties	85	98	0.3
Soya bean			
(*a*) basic seeds	80	98	0.1
(*b*) certified seeds of the first generation and certified seeds of the second generation	80	98	0.1
Sunflower	85	98	0.2
Flax and linseed			
— Flax			
(*a*) basic seeds	92	99	0.1
(*b*) certified seeds of the first generation	92	99	0.1
(*c*) certified seeds of the second generation and certified seeds of the third generation	92	99	0.1
— Linseed			
(*a*) basic seeds	85	99	0.1
(*b*) certified seeds of the first generation	85	99	0.1
(*c*) certified seeds of the second generation and certified seeds of the third generation	85	99	0.1
White mustard	85	98	0.3

3. The seeds shall also comply with the following standards as appropriate to the seeds—

(*a*) The seeds of all species shall be free from wild oat (*Avena fatua, A. ludoviciana* or *A. sterilis*) and dodder (*Cuscuta*); except that one seed of wild oat or dodder in a 100 g. sample shall not be considered an impurity if a second sample of 200 g. is free from wild oat and dodder.

(*b*) There shall not be more than one seed of wild radish (*Raphanus raphanistrum*) in a 10 g. sample of either turnip rape, swede rape, black mustard, brown mustard, or white mustard.

(*c*) In turnip rape, swede rape, black mustard, brown mustard and white mustard the percentage by weight of charlock (*Sinapis arvensis*) seeds shall not exceed 0.2.

(*d*) The number of weed seeds in a sample of 500 g. of flax or linseed seed shall not exceed 35. Within the limit of this number there shall be no more than a total of 20 seeds of blackgrass (*Alopecurus myosuroides*) and of *Lolium remotum*.

4. The seeds shall be in a satisfactory state of health as far as seed-borne organisms and diseases affecting the seeds are concerned. In particular—

(*a*) in flax or linseed and sunflower the percentage by number of seeds contaminated by *Botrytis* disease shall not exceed 5.

(*b*) in flax or linseed the percentage by number of seeds contaminated by diseases other than *Botrytis* and in particular by *Ascochyta linicola, Collectotrichum lini* and *Fusarium* spp. shall not exceed 5.

(*c*) in sunflower and swede rape the percentage by weight of sclerotia of *Sclerotinia sclerotiorum* shall not exceed 0.1.

B. *Commercial seeds*

The conditions set out in section A of this Part of this schedule, with the exception of that relating to varietal purity, shall apply to commercial seeds.

Regulations 6(1) and (3), 11(5)

SCHEDULE 3

PART I

Procedure for the taking of samples

1. Prior to sampling a seed lot shall be well mixed so as to be as uniform among its parts as is practicable.

2. When the seed lot is in sacks or other similar sized containers, the number of containers to be sampled shall be in accordance with the following table:—

Number of containers in the lot	*Minimum number of containers to be sampled*
1— 5 (inclusive)	Each container, portions being taken from at least five positions
6—14 „	Not less than 5 containers
15—30 „	At least 1 container in 3
31—49 „	Not less than 10 containers
50 or more	At least 1 container in 5

When there are more than five containers in the lot the containers to be sampled must be selected at random.

3. For sampling seed lots in containers weighing less than 50 kg a 100 kg weight of seed is taken as the basic unit. Containers shall be combined to form sampling units weighing a maximum of 100 kg (e.g. 5 containers each of 20 kg form one unit). For sampling purposes each unit shall be regarded as one container and the sampling intensity prescribed above shall be used.

4. The samples shall be taken in the following manner:

(*a*) *Seeds in full sacks or other containers*

The sacks or containers shall be sampled at random and samples taken from the top, middle or bottom, but not necessarily from more than one position, of each selected sack or container. The position from which the seed is taken shall be varied from container to container and seed shall be taken from different horizontal positions.

Wherever practicable, seed in sacks shall be sampled with a metal spear, trier or probe with a solid point which shall be of sufficient length to reach beyond the middle of the sack when inserted from the side and shall have an oval aperture so placed that the instrument removes portions of seed of equal volume from each part of the sack through which it travels. The instrument shall be inserted into the sack in an upward direction at an angle of approximately 30° to the horizontal, with its aperture downwards until the aperture reaches the centre of the sack. It shall then be rotated so as to bring the aperture uppermost and withdrawn at once at a decreasing speed so that the quantity of seeds obtained from successive locations increases progressively from the centre to the side of the sack.

Alternatively, a longer instrument may be inserted until the aperture reaches the further side of the sack, rotated in the manner described above and then withdrawn at a uniform speed.

A stick sampler may be used in place of the instrument mentioned above. It may be used horizontally or vertically. If there is more than one aperture it must have transverse partitions so that each aperture opens into a separate compartment; it shall be inserted diagonally into the sack in the closed position, then opened, gently agitated to allow it to fill completely, closed again, withdrawn and emptied.

Seeds in containers other than sacks shall wherever practicable be sampled with an instrument as aforesaid, which shall be used as already described.

Where it is not practicable to sample seeds in sacks or other containers in the manner already described, portions may be taken by hand, care being taken to keep the fingers tightly closed about the seeds so that none may escape as the hand is withdrawn. If necessary, in order to reach the lower levels, part of the contents shall be emptied into another sack or other container.

(*b*) *Seeds in a partly filled container*

The seeds shall be thoroughly mixed by hand and small portions then taken from at least five different positions.

(*c*) *Seeds in bulk*

Portions of seed shall be taken with a stick sampler from at least the number of positions indicated in the table below:—

Size of bulk		*Number of positions to be sampled*
Not exceeding 50 kg		Not less than 3
Exceeding	Not exceeding	
50 kg	1,500 kg	Not less than 5
1,500 kg	3,000 kg	At least 1 for each 300 kg
3,000 kg	5,000 kg	Not less than 10
5,000 kg	20,000 kg	At least 1 for each 500 kg

Sampling positions must be selected at random in both vertical and horizontal planes. If the sampler has more than one aperture it shall have transverse partitions so that each aperture opens into a separate compartment.

(*d*) *Seeds in a cleaning, mixing or dressing machine*

Portions of seed shall be drawn during the cleaning, mixing or dressing process so that the entire cross section of the seed stream is uniformly sampled at regular intervals throughout the whole of the process. The frequency shall be at least as indicated in the table below: —

Size of lot		*Number of times to be sampled*
Not exceeding 50 kg		Not less than 3
Exceeding	Not exceeding	
50 kg	1,500 kg	Not less than 5
1,500 kg	3,000 kg	At least 1 for each 300 kg
3,000 kg	5,000 kg	Not less than 10
5,000 kg	20,000 kg	At least 1 for each 500 kg

5. When the individual portions taken from the lot exceed the amount required they shall be put together in a clean receptacle and well mixed. The composite sample so obtained shall be reduced by using an efficient seed divider.

PART II

Maximum weight of a lot and minimum weight of a sample

	Maximum weight of lot tonnes	*Minimum weight of sample* grams
1. Sunflower and soya bean seeds	20	500
2. Flax and linseed	10	1,000
3. Other species of seeds	10	300

Regulations 5(3) and 9(2), (3), (4), (5), and (9)

SCHEDULE 5

PART I

A. Official label for a package of basic seeds, certified seeds or certified seeds of the first, second or third generations

(*a*) *Prescribed contents*

1. "EEC rules and standards"
2. Certifying Authority and Member State or their mark
3. Month and year of official sealing or resealing
4. Reference number of the lot
5. Kind
6. Variety
7. Category
8. Country of production
9. Declared net or gross weight or declared number of seeds
10. Where weight is indicated and granulated pesticides or other solid additives are used the nature of the additive and also the approximate ratio between the weight of seeds and the total weight

(*b*) *Minimum size of label*
110 mm x 67 mm

(*c*) The label shall be coloured white for basic seeds, blue for certified seeds and certified seeds of the first generation and red for certified seeds of the second and third generations

B. Official label for a package of commercial seeds

(*a*) *Prescribed contents*

1. "EEC rules and standards"
2. Service responsible for sealing and Member State or their mark
3. Month and year of official sealing or resealing
4. Reference number of the lot
5. Kind
6. "Commercial seed (not certified as to variety)"
7. Country of production or region of production within a country
8. Declared net or gross weight or declared number of seeds
9. Where weight is indicated and granulated pesticides or other solid additives are used the nature of the additive and also the approximate ratio between the weight of seeds and the total weight

(*b*) *Minimum size of the label*
110 mm x 67 mm

(*c*) The label shall be coloured brown

C. Official label for a package of pre-basic seeds

(*a*) *Prescribed contents*

1. Certifying Authority and Member State or their mark
2. Month and year of official sealing or resealing
3. Reference number of the lot
4. Kind
5. Variety
6. "Pre-basic seeds"
7. Declared net or gross weight or declared number of seeds
8. Number of generations preceding seeds of the categories "certified seeds" or "certified first generation seeds"

(*b*) *Minimum size of the label*
110 mm x 67 mm

(*c*) The label shall be coloured white with a diagonal violet line

PART II

Supplier's label for a package of uncertified pre-basic seeds

(*a*) *Prescribed contents*

1. Name and address of the supplier responsible for fixing the label or his identification mark
2. Reference number of the lot
3. Kind
4. Variety
5. "Uncertified pre-basic seeds"
6. Declared net or gross weight, or declared number of seeds except in the case of packages not exceeding 14 grams net weight

(*b*) The label shall be coloured buff

PART III

Small packages

Supplier's label for a small package of basic seeds, certified seeds, certified seeds of the first, second or third generations or commercial seeds

(*a*) *Prescribed contents*

1. "EEC rules and standards"
2. Name and address of the supplier responsible for fixing the label or his identification mark
3. Reference number of the lot
4. Kind
5. Variety (if appropriate)
6. Category
7. Declared net weight or declared number of seeds except in the case of packages not exceeding 14 grams net weight

(*b*) The label shall be coloured white for basic seeds, blue for certified seeds and certified seeds of the first generation, red for certified seeds of the second and third generations and brown for commercial seeds

PART IV

Particulars to be marked or displayed on the sale of unpacketed seeds

1. "Complies with legal standards"
2. Kind
3. Variety (if appropriate)

SCHEDULE 6 Regulation 11(2)

Limits of variation

GERMINATION

Minimum percentage of germination	*Limit of variation*
per cent	per cent
99—100	2

26—29	13
30—34	14
35—40	15
41—45	16
46—50	17

EXPLANATORY NOTE

(This note is not part of the Regulations but is intended to indicate their general purport.)

These Regulations are made under the Seeds Act (Northern Ireland) 1965 as amended by the European Communities (Agriculture) Order (Northern Ireland) 1972. They re-enact, with modifications, the Oil and Fibre Plant Seeds Regulations (Northern Ireland) 1974 (S.R. 1974 No. 150) which are revoked.

They regulate the marketing in Northern Ireland of seeds of oil and fibre plants but exclude seeds used for research, experiment or selection processes, and uncleaned seeds marketed with a view to processing or other treatment.

Seeds may be marketed only if they are specified categories as defined in the Regulations and sold in sealed packages labelled with prescribed particulars. The particulars stated or implied on a package of seeds are deemed to constitute a warranty by the seller for the protection of the purchaser under provisions of the Regulations. There is provision for the taking of samples for verification of standards attained and for the enforcement of the obligations imposed by the Regulations. Tampering with labels prescribed by the Regulations will constitute an offence.

These Regulations modify the procedure for the movement of seed prior to the completion of the official examination subject to certain provisions for the protection of the purchaser. The transitional marketing arrangements prior to 1st July 1976 for which provisions existed in the Oil and Fibre Plant Seeds Regulations (Northern Ireland) 1974 have been omitted.

Schedules to the Regulations include details of the standards to be attained by the different categories of seeds and the crops from which they are derived. There are also procedures for the taking of samples and of the particulars to appear on labels on packages of seeds.

The Regulations give effect to Directive 66/402/EEC of the Council of the European Economic Community (O.J. No. 125, 11.7.66—O.J./S.E. 27.3.72) as amended by Directive 75/438/EEC (O.J. No. L356, 27.12.73, p. 79) and Directive 75/444/EEC (O.J. No. L196, 26.7.75, p. 6), on the marketing of seeds of oil and fibre plants.
