(3) overlocking used alone, except in the case of garments made from knitted, netted or crochetted fabrics.

2. In relation to any part of a garment having a pinked edge there shall be not less than ¼in. of fabric between the inner edge of the pinking and the nearest stitching.

EXPLANATORY NOTE

(This Note is not part of the Order, but is intended to indicate its general purport.)

This Order supersedes the current Orders on women's and maids' underwear and nightwear.

The principal changes are as follows:—

(1) The manufacturer's maximum prices for all garments are now based solely on the prices specified in the First Schedule. In the case of garments made of cotton or wool cloths the manufacturer's maximum prices have hitherto been "cost plus" with overriding maxima.

(2) Three size ranges are now provided for all garments except those made from subsidized cotton cloths (i.e., cloths of which the specification number is not preceded by the letter "X"), and maximum prices are specified for each size range.

(3) One wool cloth and five cotton cloths (the specification numbers of which are printed in bold type) have been added to the First Schedule for certain garments.

(4) Garments made from utility knitted rayon cloth and intended for export are free from the minimum measurement and price control provisions of the Order, and the general provisions relating to the application of the utility mark and specification number have been modified in respect of such garments.
