EXPLANATORY NOTE

(This note is not part of the Regulations, but is intended to indicate their general purport.)

These regulations further amend the European Free Trade Association (Origin of Goods) Regulations, 1960, by adding "neutral potassium carbonate, anhydrous" to the goods listed in the Third Schedule. The effect of the amendment is that, for the purpose of determining the origin of goods produced from this material in the area of the E.F.T.A., the material will be regarded as itself of area origin even if it has been imported from outside the area.
