EXPLANATORY NOTE

(This Note is not part of the Regulations.)

These regulations, which apply throughout the United Kingdom, prohibit the import of any live animal of any of the kinds included in the Schedule to the regulations except at one of the ports or airports designated in the Schedule in relation to animals of that kind (regulation 2).

The regulations do not apply either to the import by any person of no more than 2 birds (other than diurnal birds of prey) which accompany that person (regulation 3), or where importation is authorised by the Secretary of State (regulation 4).

The regulations give effect to an obligation of the United Kingdom arising out of Article VIII 3. of the Convention on International Trade in Endangered Species of Wild Fauna and Flora ("the Convention") as set out in Annex A to Council Regulation (EEC) No. 3626/82 (OJ No. L384, 31.12.1982, p.1.) to ensure that specimens (including animals) shall pass through any formalities required for trade with a minimum of delay.

Council Regulation (EEC) No. 3626/82 applies the Convention throughout the Community under the conditions laid down in that regulation.
